

## Collection Systems Grade 1 & 2

FLEMING TRAINING CENTER  
COURSE # 1213

### Who should attend?

Persons who are currently working in a Grade 1 or 2 Collection System and are planning to become certified collection system operators.

No prerequisite is required, however, basic math skills are essential. For those who need to brush up on math, course # 1004, Basic Math, is recommended.

### Course Description

The course will examine collection system facilities and the procedures used to operate a wastewater collection system.

### Major topics include:

- Pipeline Cleaning and Maintenance
- Pumps and Lift Stations
- Sewer Rehabilitation
- Inspection and Testing
- Equipment Maintenance
- Cross Connection Control
- Trenching
- Safety

### Course Materials

Please bring a Study Guide printed off Fleming website for Collection Systems class (or request a book be printed for you by FTC), scientific calculator, scratch paper, highlighter, and pens or pencils to class.

For a complete list of exam reference textbooks, please visit our website at <http://www.tn.gov/environment/article/wr-ftc-textbook-reference-list>

### Course Length

The course is four class days.

### Operator Experience Credit

Three months for Collection Grade 1 and 2 Operator applicants.

### Continuing Education Credit

Approved for six hours of continuing education credit for all **certified** collection operators.

### Fees

\$275.00 for class

\$10.00 for Study Guide (or print from [Fleming website](#) for free)
